INTRODUCTION

This Supplemental Nutrition Assistance Program (SNAP) Quality Control (QC) Annual Report presents official quality control error rates and other statistical data derived from SNAP QC reviews conducted for Fiscal Year (FY) 2010.

Each State agency conducts monthly QC reviews of a statistical sample of households participating in the SNAP (active cases) and households for which participation was denied or terminated (negative cases). These reviews measure the validity of SNAP cases at a given time. The reported State dollar and case error rates are based on these reviews. The State reviews also provide information on the error cause and characteristics of the household.

Additionally, Federal reviews of each State's sample are conducted annually to validate each State agency's error rate. The official active and negative error rates listed in this report are based upon the Federal validation reviews of the State agency samples.

In a program that provided \$64.7 billion in benefits in FY 2010 to needy Americans, more than half of whom are children and the elderly, efficient and effective program administration is essential.

Local agencies certify households for SNAP benefits and, along with the State agencies, are directly responsible for operating the SNAP. While the Food and Nutrition Service (FNS) can assist States through a variety of methods, the States themselves must ultimately make the commitment to conduct accurate and efficient program operations. FNS remains committed to supporting the ongoing efforts of States to increase the accuracy of SNAP certification actions.

To help support these efforts, FNS has undertaken special initiatives designed to increase payment accuracy. Activities in FY 2009 included: 1) continued funding for State Exchange activity; 2) FNS national and regional payment accuracy conferences; 3) technical assistance to States; and 4) National and regional publications publicizing successful payment accuracy strategies implemented across the country.

FY 2010 was another year of excellent performance in payment accuracy in SNAP. The payment error rate in SNAP for FY 2010 is 3.81 percent. This is the lowest National payment error rate in the history of SNAP.

The SNAP negative error rate for fiscal year FY 2010 is 8.43 percent. The FY 2009 negative error rate is 9.41 percent.

In addition to efforts to increase the accuracy of SNAP certification actions, FNS is also continuing to make improvements to SNAP to ensure that it is responsive and effective in its support of those individuals and families who rely on its benefits. This includes making the SNAP more visible and accessible to needy individuals and working families.

Further information on SNAP may be obtained at the SNAP website at www.fns.usda.gov/snap. Specific information on the QC process is found in the FNS 310 Handbook, the SNAP Quality Control Review Handbook. Additional information may also be obtained by contacting the Quality Control Branch at 703-305-2442.

REPORT ORGANIZATION

PART I

Part I presents official quality control (QC) error rates as well as reported dollar and case error rates. With the passage of the Hunger Prevention Act of 1988, the payment error rate became the sum of the overpayment and underpayment error rates. Therefore, in this report we use the term "payment error rate" to reference the sum of the overpayment and underpayment error rates.

PART II

Part II provides information on variances. A variance occurs in a case when information verified by the QC reviewer differs from information used at the time of the most recent certification action, when policy has been misapplied for individual elements of eligibility or when the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

Only variances occurring in dollar error cases are included in this report. For Tables 19, 20, and 21 we assume that the first variance coded is the primary variance. All error amounts are assigned to this variance. All variances (primary and otherwise) cited for a particular case are included in the remaining Tables.

PART III

Part III provides data on the distribution of monthly benefit dollars and overpayment error dollars for selected household characteristics for each State and on a National basis. This information can be used to identify error prone household characteristics by comparing the percent of allotments to the percent of error dollars.

PART IV

Part IV provides information on State sampling parameters of the active and negative universes. For active cases we have also included completion rates and standard errors for the reported and regressed payment error rates.

HIGHLIGHTS

Active Cases. The following statistics compare the performance measure for active cases for FY 2006 through FY 2010:

		<u>FY 2006</u>	<u>FY 2007</u>	<u>FY 2008</u>	<u>FY 2009</u>	<u>FY 2010</u>
National-average official <u>overpayment</u> error rate a/	:	4.82%	4.58%	4.01%	3.53%	3.05%
National-average official <u>underpayment</u> error rate	:	1.17%	1.06%	1.00%	0.82%	0.75%
National-average official <u>payment</u> error rate (standard error = approximately 0.10%) b/	:	5.99%	5.64%	5.01%	4.36%	3.81%
Number of States with an official <u>payment</u> error rate under 6%	:	25	28	35	47	47
Number of States with an official <u>payment</u> error rate over 10%	:	0	1	0	0	0

Negative cases. The following compares the performance measures for reported negative cases for FY 2006 through FY 2010:

		<u>FY 2006</u>	<u>FY 2007</u>	<u>FY 2008</u>	<u>FY 2009</u>	<u>FY 2010</u>
National-average <u>negative</u> case error rate c/	:	8.02%	10.94%	10.96%	9.41%	8.43%

a/ National weighted average for active cases is calculated by weighting each State's error rate by its actual issuance.

b/ The official payment error rate may not equal the sum of the underpayment and overpayment error rates due to rounding.

c/ Validated national weighted average is calculated by weighting each State's error rate by its actual caseload.

TABLE 1: SUMMARY OF U.S. QUALITY CONTROL FINDINGS FOR FY 2009 - 2010

	FY 2009	FY 2010
ACTIVE CASES:		
Completed Sample Reviews - State	52,303	53,254
Completed Sample Reviews - Federal	20,722	20,040
Average Monthly Caseload	14,529,950	17,684,193
Estimated Monthly Allotments	3,908,056,969	5,036,447,820
Average Allotment Per Case	\$269	\$285
<u>REPORTED CASE ERROR RATES</u> a/		
Underpayment	2.08%	2.36%
Overpayment b/	5.80%	5.89%
Combined	7.87%	8.25%
<u>OFFICIAL ERROR RATES</u> c/		
Underpayment	0.82%	0.75%
Overpayment b/	3.53%	3.05%
Payment Rate (Combined)	4.36%	3.81%
<u>NEGATIVE CASES:</u>		
Average Monthly Caseload	807,137	887,345
Completed Case Reviews	36,366	36,265
Validated Negative Error Rate	9.41%	8.43%

a/ U.S. case error rates are weighted by State caseloads.

b/ Overpayments include both overpayments to eligible and payments to eligibles.

c/ U.S. official error rates are weighted by States' actual issuance data.

Performance Bonuses for Fiscal Year 2010

A total of \$48 million in performance bonuses is shared among high performing States in the following categories:

- Best and Most Improved Payment Error Rate (\$24 million shared)
- Best and Most Improved Negative Error Rate (\$6 million shared)
- Participant Access Rate (\$12 million shared)*
- Timeliness of Application Processing (\$6 million shared)*

*Participant Access and Timeliness Bonuses are announced in September following the previous fiscal year.

The amount each State receives within a specific category is prorated based on caseload. The Payment and Negative Error Rate Bonuses are awarded based on QC findings covered by this annual report.

The FY 2010 awardees for the Payment Error Rate and Negative Error Rate bonuses are:

For Best Payment Error Rate:

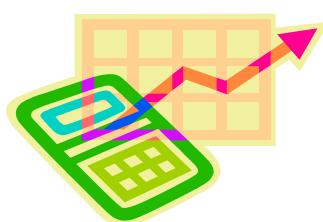

Florida	\$ 6,083,577	Nebraska	\$ 363,960
South Dakota	\$ 274,866	South Dakota	\$ 249,878
Delaware	\$ 320,503	North Dakota	\$ 201,899
Illinois**	\$ 3,483,562	Oregon	\$ 1,498,524
Mississippi	\$ 1,182,483		
Wisconsin	\$ 1,484,019		
Georgia	\$ 3,076,511		
Texas**	\$ 6,243,012		
Alaska	\$ 232,898		

For Best Negative Error Rate:

**Illinois and Texas also ranked among the top three Most Improved States

For Most Improved Payment Error Rate: **For Most Improved Negative Error Rate:**

Indiana	\$ 1,618,569	District of Columbia	\$ 347,086
		Michigan	\$ 3,338,653

Liability Amounts for Fiscal Year 2010

Under the Food and Nutrition Act of 2008, a liability shall be established whenever, for 2 consecutive years, there is a 95 percent statistical probability that a State's payment error rate exceeds 105 percent of the national performance average.

In FY 2010, three States' error rates exceeded the liability level for the second consecutive year. Liabilities totaling an aggregate of \$2.5 million were established against only two States as one State's error rate is below the 6.00 percent potential liability threshold provided in the Act. The Department's settlement offer to these States was 50 percent designated as at-risk for repayment if the same probability exists again in FY 2011; and 50 percent was designated for new investment activities. In addition to these three States, 13 additional States exceeded the liability level for the first year. These 13 States are potentially liable in FY 2011 should their performance again exceed the liability level.

The FY 2010 States assessed liabilities and that had a 95 percent statistical probability of their payment error rate exceeding 105 percent of the national performance average are:

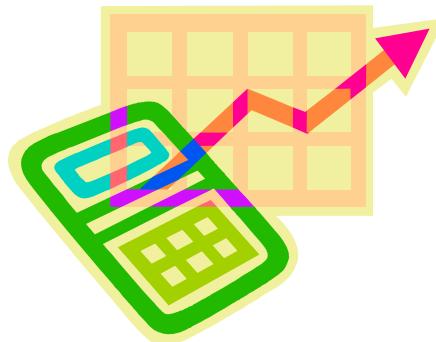

Assessed a Liability:

Arizona	\$1,095,515
Maryland	\$1,474,999
Missouri*	\$ 0

*Because Missouri's error rate is below the 6 percent threshold provided in the Act, no liability amount is established.

Poorly performing States are not held liable for all errors. Penalties are assessed for only that portion of the error rate that is above 6 percent.

To calculate the liability, take the value of all allotments issued by the State agency in the fiscal year, times the difference between 6 percent and the State's payment error rate, times 10 percent.

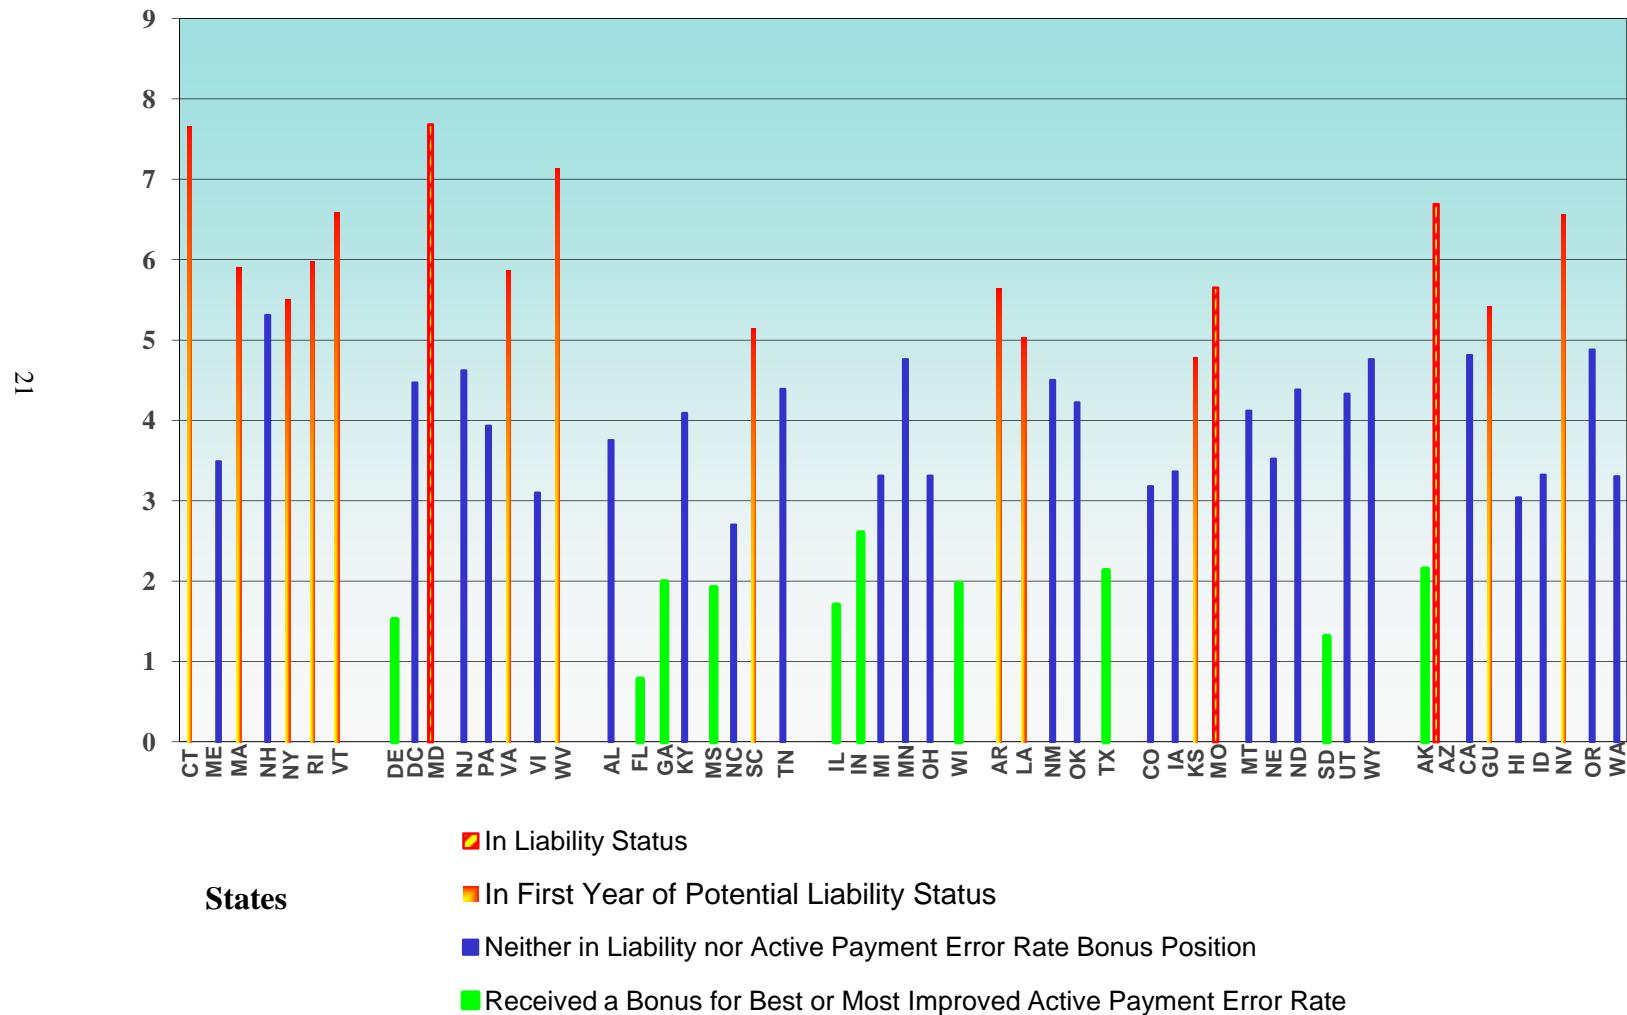

Exceeded First Year Liability Level:

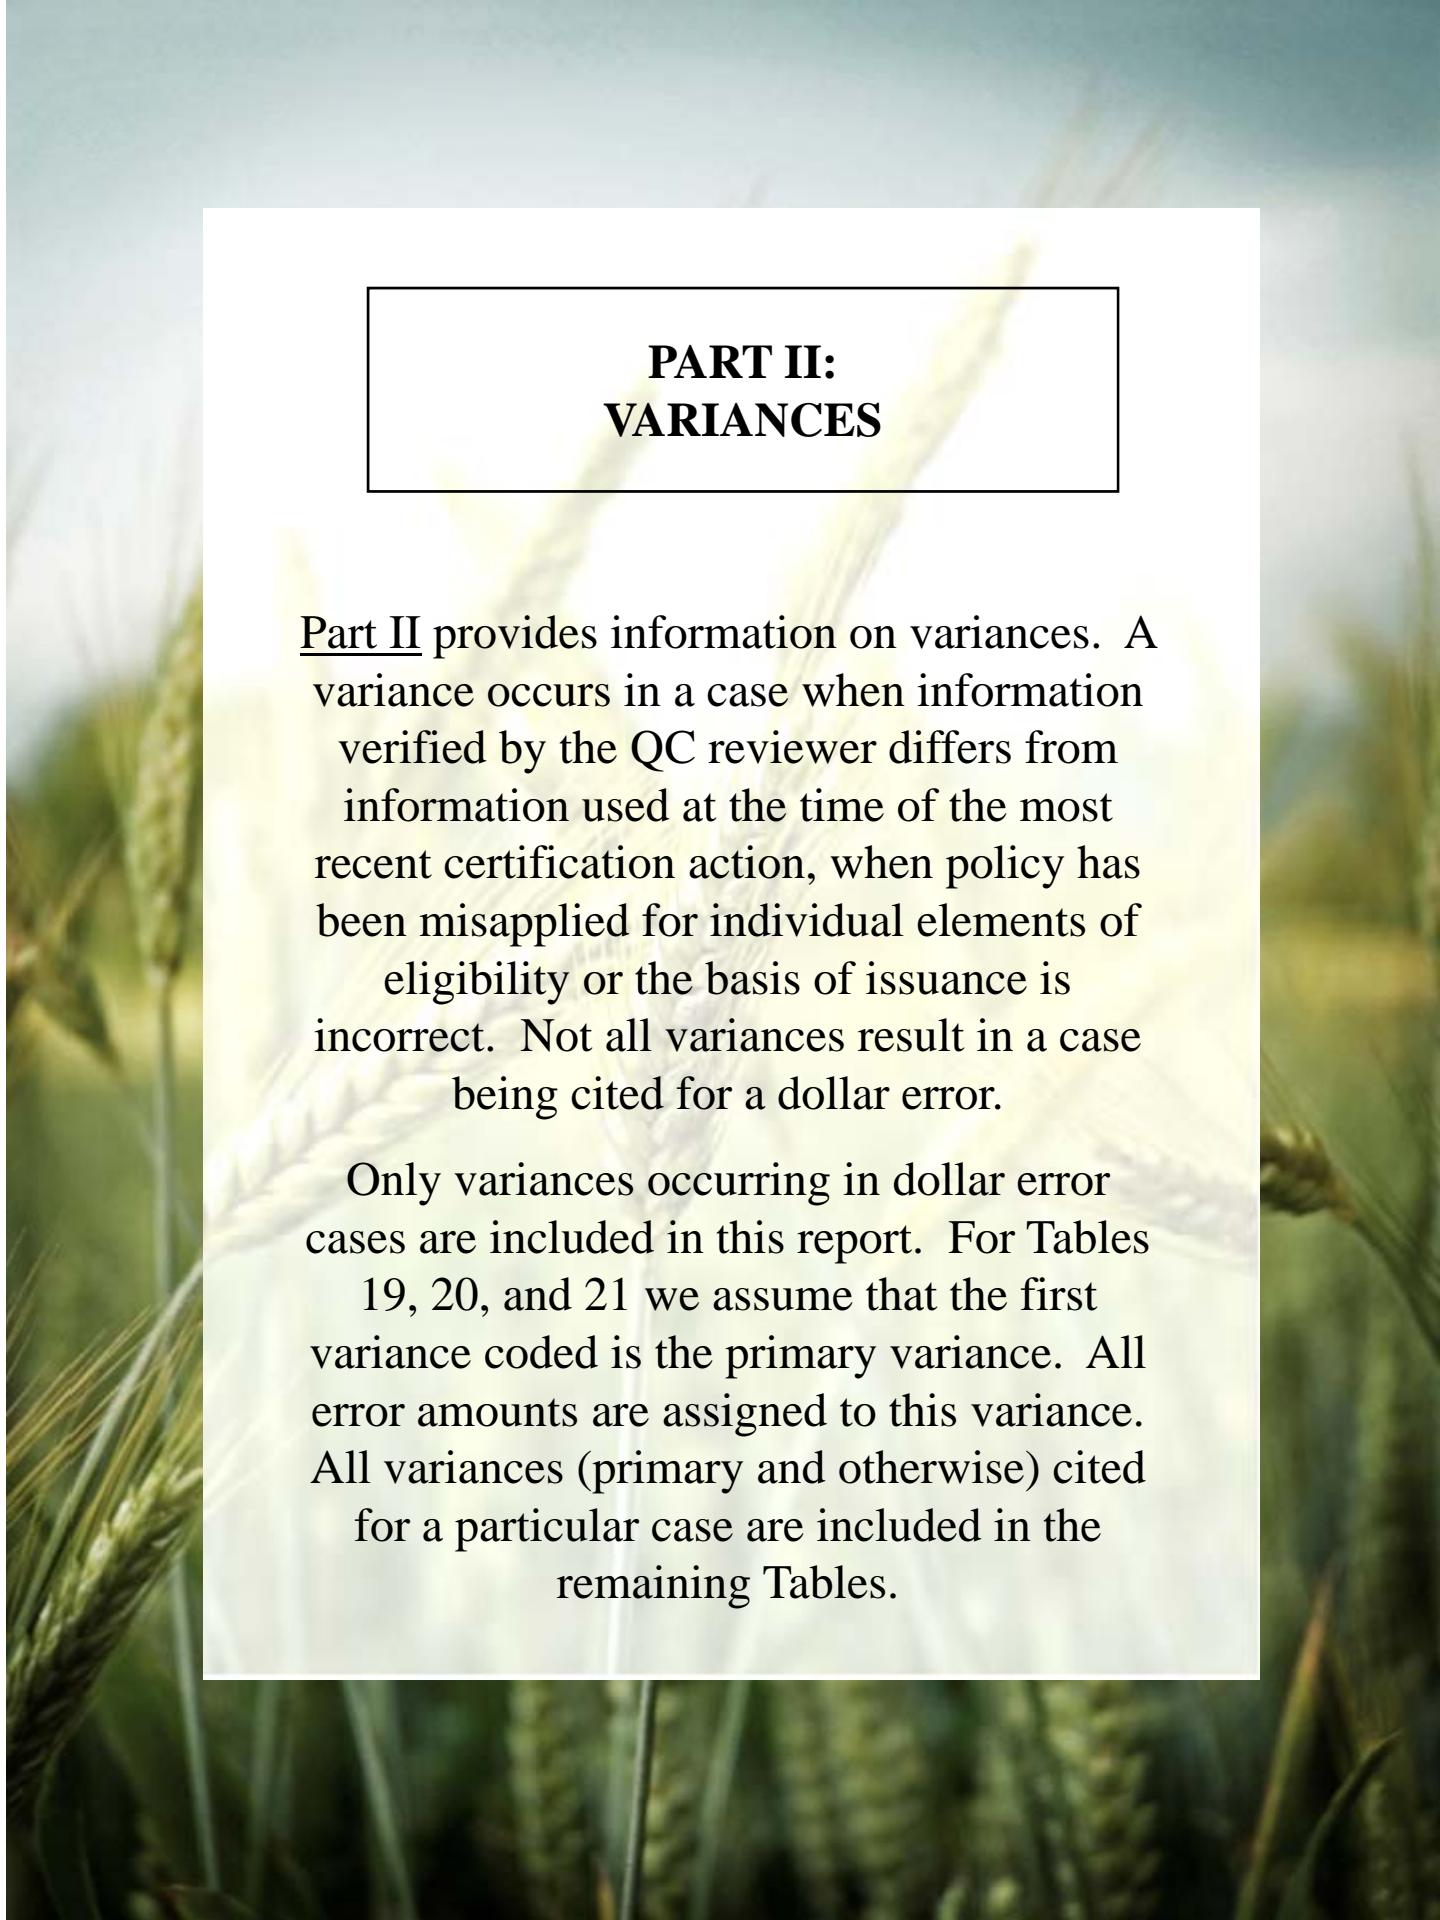

Arkansas	Connecticut	Guam	Kansas	Louisiana
Massachusetts	Nevada	New York	Rhode Island	South Carolina
Vermont	Virginia	West Virginia

PART II: VARIANCES

Part II provides information on variances. A variance occurs in a case when information verified by the QC reviewer differs from information used at the time of the most recent certification action, when policy has been misapplied for individual elements of eligibility or the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

Only variances occurring in dollar error cases are included in this report. For Tables 19, 20, and 21 we assume that the first variance coded is the primary variance. All error amounts are assigned to this variance. All variances (primary and otherwise) cited for a particular case are included in the remaining Tables.

VARIANCES

What is a variance?

Variances occur when information verified by the QC reviewer differs from information used at the time of the most recent certification action or when policy has been misapplied for individual elements of eligibility or the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

What are the Program factors referred to in Tables 11 through 13?

NON-FINANCIAL ELIGIBILITY refers to non-financial factors considered in determining a household's eligibility. These include Age & Student Status, Citizenship & Non-Citizenship, Residency, Household Composition, Work Requirements, and Social Security Number.

INCOME refers to a household's Earned (Wages & Salaries, Self-employment, etc.) or Unearned Income (Veterans Benefits, Unemployment Compensation, Worker's Compensation, and Other Government Programs (PA, RSDI, SSI, etc.))

OTHER refers to variances occurring in areas such as Arithmetic Computation, Monthly Reporting, FS Simplification Project, and Demonstration Projects.

What variances are included in this report?

Only variances occurring in dollar error cases are included in this report. For all variance tables, other than Tables 19, 20, and 21, all variances cited in the case are included. For Tables 19, 20, and 21 we assume that the first variance coded is the primary variance. All error amounts are assigned to this variance.

DEDUCTIONS refer to the allowed deductions from a household's gross income. These include the Earned Income, Dependent Care, Standard Shelter, Medical and Child Support Payment deductions.

RESOURCES refer to a household's liquid or non-liquid assets. These include Bank Accounts or Cash on Hand, Nonrecurring Lump Sum Payments, Personal Property, Real Property, and Vehicles, etc.

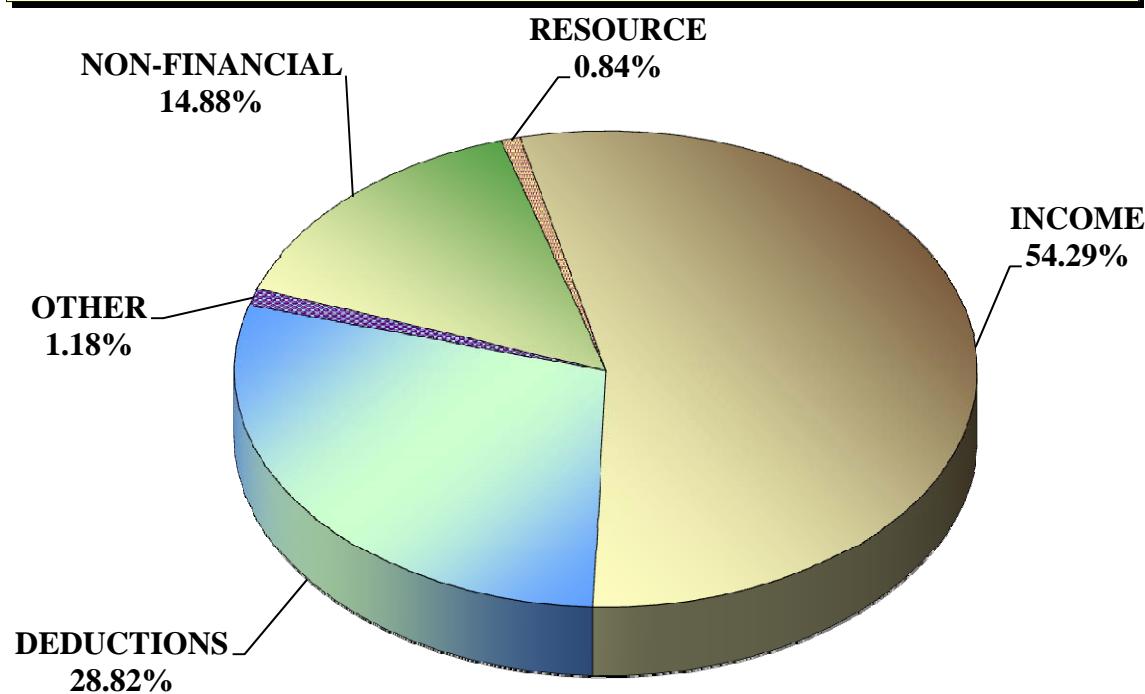

For additional information, please refer to *The Supplemental Nutrition Assistance Program Quality Control Review Handbook FNS-310*.

PART III: COMPARISON OF BENEFIT AND OVERPAYMENT ERROR DOLLARS BY HOUSEHOLD CHARACTERISTICS

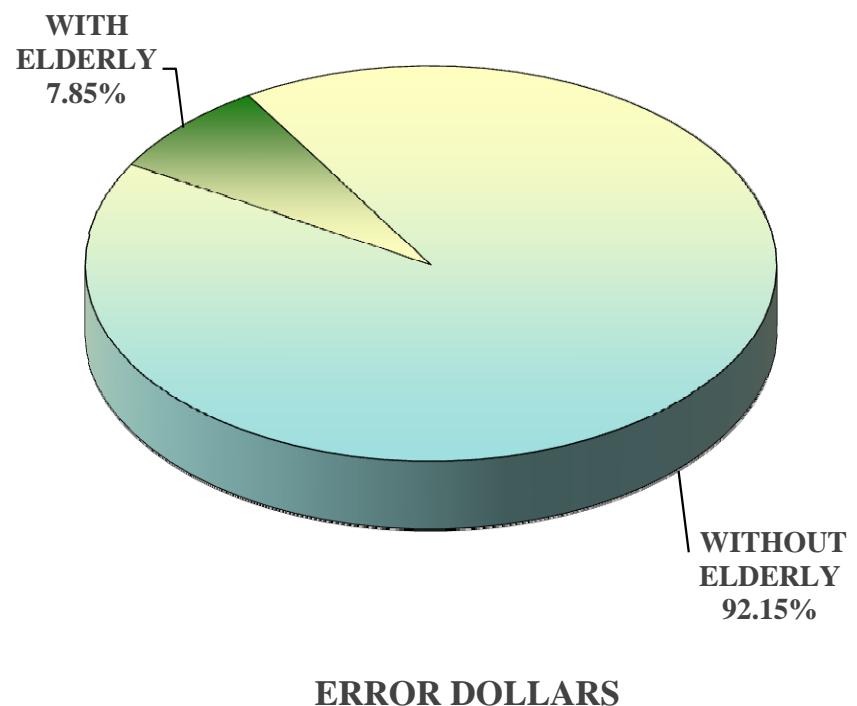

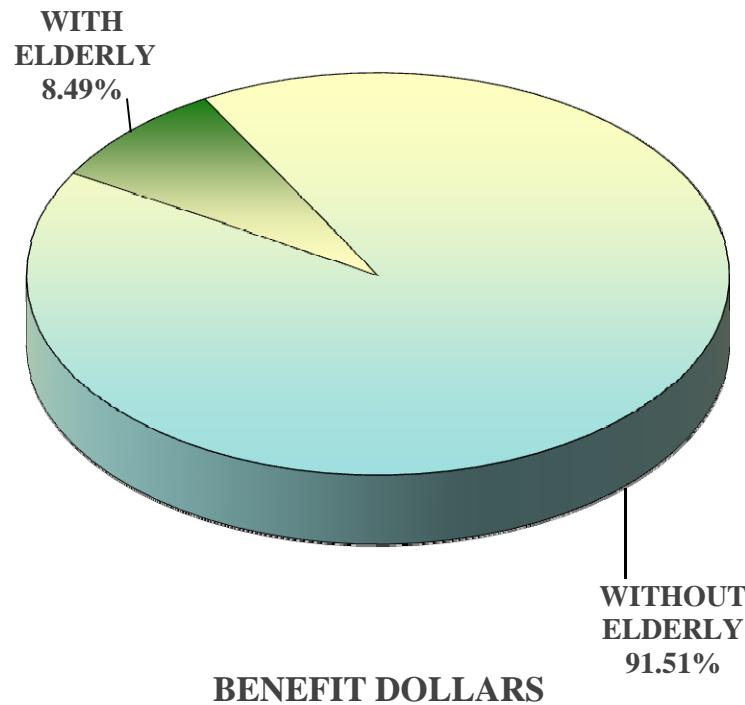

Part III provides data on the distribution of monthly benefit dollars and overpayment error dollars for selected household characteristics for each State and on a National basis. This information can be used to identify error prone household characteristics by comparing the percent of allotments to the percent of error dollars.

**TABLE 22: BENEFIT AND OVERPAYMENT DOLLARS BY HOUSEHOLD

a/ Completed cases are only those cases coded class 1.

b/ Completion rates for stratified States are weighted with stratum caseloads.

c/ The U.S. completion rate is weighted by State average monthly caseload.

a/ The listed standard errors can be used in conjunction with the FY- 10 error rates to calculate confidence intervals for the combined payment error rate. The 95% lower confidence limit is 1.96 standard errors less than the corresponding value, the upper 95% confidence limit is 1.96 standard errors greater than the value.
